Email 1: What is OneStream Live? — Introduction Email

Subject: Want to 50x your reach without doing more?

Hey [Name],

I loved your content, it's amazing. But here's a question: why are you limiting it to just one platform? You put in all that effort, create great content, and still feel invisible. That's not fair. I have a simple and easy solution for you

You can go live on Facebook, YouTube, TikTok, LinkedIn, Instagram, and 50+ more platforms and websites at the same time using OneStream Live.

One upload. One click. All eyes on you.

Run live sessions. Schedule pre-recorded videos. Launch product drops. Host Q&As. Whatever your style, OneStream Live makes it simple — no extra gear, no tech skills.

It works for creators, coaches, small business owners, gamers, marketers and anyone who wants to grow without wasting time.

You already create great content. Now let more people see it.

Try OneStream Live today: **[Insert Affiliate Link]**

Your audience is waiting. See you on every platform – all the best!

Regards,

[Your name]

Email 2: Why I Recommend OneStream Live — Personal Use Case

Subject: I used to stream on just one platform — big mistake!

Hey [Name]

We should always be where our audience is. Smart creators don't take chances — they go live everywhere

I used to stream games on Twitch only. I thought that's where my people were. But I was missing out. So, I started testing other platforms! Turned out YouTube and Facebook had huge audiences ready to watch. But then I didn't want to juggle five screens or mess with complicated tools. That's when I found OneStream Live!

Now I stream to Twitch, YouTube, Facebook, LinkedIn, TikTok, and so many more platforms — all at once.

One upload. One setup. And I'm live everywhere.

More reach. More views. Same content. Zero extra effort.

If you're serious about growing faster, this is the smartest move you'll make.

Try OneStream Live here **[Insert Affiliate Link]**

I wish I had started sooner.

See you on every platform.

Regards,

[Your name]

Email 4: Top 5 Things You Can Do with OneStream Live — Features Showcase

Subject: Top 5 Things You can do with OneStream Live

Hey [Name],

Multistreaming is just the start.

Here's what else you can do with OneStream Live, and how smart creators are using it to grow faster, stay visible, and save time.

1. Restream from External RTMP Encoders

Already using OBS, vMix, or any RTMP encoder? Just connect it to OneStream Live and stream anywhere you want — social platforms, hosted live pages, or even custom RTMP destinations.

→ Perfect for: *gamers, streamers, studios, agencies*

[How to connect your encoder](#)

2. Schedule Pre-Recorded Videos as Live Streams

Record once, schedule it to go live anytime, even while you sleep. You can also run **playlist streams** or **24/7 YouTube livestreams**

→ Perfect for: *educators, musicians, gamers, coaches, content creators*

[Learn more about pre-recorded live streams](#)

3. Hosted Live Pages + Website Embeds

You can create a custom live page and no external hosting or domain is needed. Or you can embed your stream on your own landing page, sales page, or blog.

→ Perfect for: *course creators, SaaS, product launches*

[Build your custom webpage](#)

4. Host Real-Time Events in the Cloud
